

# Sandy Point Dredge Comitee Meeting Minutes

Date: 5/02/2018

Item	Discussion	Action
Meeting was called to order at 4:15pm: Jim Kolbo, Ron Jepson, Jeff McKay, Kristi Hug, Chris Fairbanks (Environmental Engineer), and Katheryn Ketteridge (Coastal Entineer) attending. Location: Jepson Engineering Office		
Confluence Engineering will continue the sedimentation study to a dredge depth of -10ft. Tweaked the west edge of the planned dredge area north-easterly, to minimize potention for sloughing towards the eel grass beds.	Per Whatcom County's 2nd request for more information	Additional Information Report will be submitted to County in mid-May
Faribanks Environmental will adjust his report	County is usually not concerned with Eelgrass during a Maintenance dredge	
Ron will get an updated inventory & square footage of areas to Chris Fairbanks.	Upland areas vs marine habitat	
Estimate of when the next maintenance dredge will be needed	best practice is monitoring	Very difficult to model
Kristi will email Kateryn Ketteridge photos from 2010 and 2018	showing gravel bar	Done.
Meeting Adjorned at 5:15pm
